10000mAh Jump Starter with Tire Inflator & Flashlight

WAU-RV26

Be prepared for any roadside emergency with this compact 10000mAh jump starter featuring a built-in tire inflator and multi-mode LED flashlight. Delivering up to 800A peak current and a 150 PSI inflation, it quickly handles dead batteries and low tires. Includes intelligent safety clamps, valve adapters, USB charging, and a zippered pouch—an essential all-in-one tool for winter weather and everyday travel.

Features:

- 10,000mAh jump starter
- 150 PSI built-in air compressor
- USB-A output (5V/2.4A)
- USB-C input (5V/2A)
- Three modes flashlight
- USB to USB-C charging cable
- Zippered storage case
