- Instruction Manual (x1)

Safety Precautions

- This product is NOT a toy, keep away from children and pets.
- Only use the device according to the instructions in this manual.
- Never use the device for anything other than its intended purpose.
- Do not open this product or attempt to repair the unit yourself if it is not working properly. Doing so risks fire, shock or injury.
- When not in use, the device should be stored in a dry, cool location, away from sources of water or heat.
- Do not expose device or charging cable to extreme temperatures (heat or cold), open flames, humid or wet conditions.
- Do not pull the charging cable to disconnect, or use the cable as a handle.
- Do not use if device or charging cable is damaged. If device or charging cable is damaged, it MUST be serviced or replaced by the manufacturer or its service agent before using again.
- Low battery may cause dysfunction.
- Do not over charge battery.
- This device contains a built-in battery and should not be disposed of with regular household waste. Please consult the local authorities on the correct way to dispose of this device.

Product

Instructions

Be sure to fully charge the built-in battery before using the light for the first time.

Charging the Built-in Battery

- Make sure the light is turned off before charging.
- Place the bottle on a flat, solid, stable surface.
- Plug the USB connector of built-in charging cable into a USB power source, such as the USB port on a computer or into a compatible 5V USB adapter (not included) and plug into a wall socket.
- The LED indicator will glow **RED** when charging and turn **GREEN** when fully charged. Make sure the built-in charging cable is inserted back to the bottle cap securely when charging is complete.

Charging the Built-in Battery with Solar Panel

- Place the bottle in bright and consistent sunlight
- The battery will begin to charge instantly when the solar panel is exposed to sunlight.
- The LED indicator will glow **RED** when charging and turn **GREEN** when fully charged.

Using the LED Light

- Press the Power Switch once to turn on the LED light.
- Press the Power Switch to adjust the light brightness level between high, medium and low.
- Press the Power Switch to turn off the LED light.

Using the Bottle in Wet Conditions

- The bottle has an Ingress Protection rating of IPX7. This means it is fully waterproof and submersible in water of up to 1 meter (3.28ft) depth for 30 minutes.
- Always make sure that the built-in charging cable is inserted into the bottle cap securely before using the bottle in wet conditions. Never charge the bottle in wet conditions.

Washing the Bottle & Cap

- The bottle can be washed normally with soap and water.
- To clean the bottle cap, make sure the built-in charging cable is inserted into the bottle cap securely, and carefully wipe with a damp cloth.

Tech Specifications

LED Luminous Flux	100 lumen
Battery Capacity	480mAh/3.7V (1.776 Wh)
Power Input	5V/350mA
Charging Time (via cable)	2.5 hours
Charging Time (via solar panel)	25 hours

Using Time	Up to 6 hours (50% brightness)
Waterproof Grade	IPX7

FCC Information

This device complies with Part 15 of the FCC Rules.

Caution: Any changes or modifications not expressly approved could void the user’s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions : (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
