

Hydro-Pure UV-C Self Cleaning Bottle

Instruction Manual

EPA Est. No.: 97301-CHN-1

READ ALL INSTRUCTIONS CAREFULLY BEFORE USE AND KEEP THIS MANUAL

In the Box

- Hydro-Pure UV-C Self Cleaning Bottle (x1)
- Power Cable (x1)
- User Manual (x1)

Safety Precautions

- This product is NOT a toy, keep away from children and pets.
- Only use the device according to the instructions in this manual. Never use the device for anything other than its intended purpose.
- This device is NOT a substitute for proper medical equipment or attention.
- ONLY use the supplied power cable.
- Do not open this product or attempt to repair the unit yourself if it is not working properly. Doing so risks fire, shock or injury.
- The device contains a safety feature that powers it off automatically when the cover is opened. Do NOT disable this safety feature. **Never allow UV-C light to shine in eyes or on skin.**
- When not in use, the device should be stored in a dry, cool location, away from sources of water or heat.
- Do not expose device or power cable to extreme temperatures (heat or cold), open flames, humid or wet conditions.
- Do not submerge in water. Do not use in a location where the device or power cable could fall into liquid.
- Unplug the charging cable when not in use. Do not pull the charging cable to disconnect, or use the cable as a handle.
- Do not use if device or power cable is damaged. If device or power cable is damaged, it MUST be serviced or replaced by the manufacturer or its service agent before using again.
- Low battery may cause dysfunction.
- Do not over charge battery.
- This device contains a built-in battery and should not be disposed of with regular household waste. Please consult the local authorities on the correct way to dispose of this device.

Product

Warning: The water bottle lid is NOT waterproof and should never be submerged in water.

Charging the Built-in Battery

- Place the UV-C sanitizing bottle on a flat, solid, stable surface.
- Lift the protective cover, and plug the small connector of the included power cable into the micro USB port on the top of the water bottle lid.
- Plug the large connector into a USB power source, such as the USB port on a computer or into a compatible **5V USB adapter** (not included) and plug into a wall socket.
- The LED light ring on the top will glow **RED** when charging and turn **OFF** when fully charged.
- **Low Battery Warning:** If the lid is low on battery when sanitization is activated, the LED light ring will **FLASH** throughout the sanitization. If the battery is dead, the LED indicator will not light up at all.

Setting Up

- Charge the lid's built-in battery fully before using.
- Wash the bottle before using for the first time. See the **Washing the Bottle & Lid** section below for detailed instruction.
- If you are sanitizing water, fill the water bottle with water. If you are sanitizing the bottle, leave it empty. Screw the lid onto the top of the water bottle. The lid should be completely and tightly screwed on.

Using the UVC Sanitization

The UV-C sanitizer has two sanitization modes: **Bottle Sanitize** mode and **Water Sanitize** mode.

- Press the [Power] button once (1x) to start **Bottle Sanitize**. This is to sanitize the inside of the bottle when it's empty (no water).
- When **Bottle Sanitize** mode is activated, the LED light ring on top will glow **BLUE**, and the sanitizer will sanitize for the next **3 minutes**. When it is finished, the LED indicator will flash **BLUE** 3 times then will turn off.
- Press the [Power] button twice (2x) to start **Water Sanitize**. This is to sanitize water inside the bottle.
- When **Water Sanitize** mode is activated, the LED light ring on top will glow **GREEN**, and the sanitizer will sanitize for the next **5 minutes**. When it is finished, the LED indicator will flash **GREEN** for 3 times then will turn off.

▲ Important Safety Note: The UV-C Sanitizing Cap Water Bottle is not meant to professionally sanitize water. **This device is not meant for medical use.** It is intended only to help fight bacterial growth.

▲ Caution: This device is designed to limit human & animal exposure to UV-C light, as it is harmful to skin and eyes. This device is equipped with a safety feature that automatically shuts the UV-C light off when the lid is not completely screwed on. **Never delete this feature or expose skin or eyes to UV-C lights.**

Washing the Bottle & Lid

Warning: The lid is NOT waterproof, and cannot go in the dishwasher or be submerged in water!

- The water bottle and the bottom of the lid can be washed normally with soap and water. They can also be sanitized with the UV sanitization.

- To clean the top of the lid, make sure the protective seal is covering the charging port, and carefully wipe with a damp cloth.

Tech Specifications

- Battery Capacity: 400mAh/3.7V
- Charging Input: 5V \approx 400mA

FCC Information

This device complies with Part 15 of the FCC Rules.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
