• Connect the appropriate charging cable to your device and to the USB-C port or USB-A on the charger.
• Plug the AC wall plugs on the charger into a wall socket to begin charge.

## SAFETY PRECAUTIONS

• This product is NOT a toy, keep away from children and pets.
• Only use the product according to the instructions in this manual. Never use the adapter for anything other than its intended purpose.
• Do not open this product or attempt to repair the unit yourself if it is not working properly. Doing so risks fire, shock or injury.

- When not in use, the product should be stored in a dry, cool location, away from sources of water or heat.
- Do not expose the product to extreme temperatures (heat or cold), open flames, humid or wet conditions.
- Do not submerge in water. Do not use in a location where the product could fall into liquid.
- Do not use if the product is damaged. If the product is damaged, it MUST be serviced or replaced by the manufacturer or its service agent before using again.
- Unplug the product from wall socket when it is not in use.
- For indoor use ONLY.

**FCC INFORMATION**

This device complies with Part 15 of the FCC Rules.

**Caution:** Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
