Instructions

Note: Remove plastic isolator from each earbud before use and dispose properly.

Be sure to fully charge the earbuds and charging case before using for the first time.

Charge the Earbuds

- Make sure the earbuds are securely placed into the charging case.
- Place the right and left earbuds into the corresponding slots so that the magnetic metal charging contacts line-up correctly.
- The earbud LED indicator will glow **RED** and the charging case LED indicator will glow **BLUE** when the earbuds are charging.

- Once the earbuds are fully charged, the earbud LED indicator and the charging case LED indicator will turn off.
- You will hear a beep prompt when the earbuds need recharging.

Charge the Charging Case

- Plug the small connector of the included charging cable into the USB-C charging port on the charging case.
- Plug the large connector into a USB power source, such as the USB port on a computer or into a compatible 5V USB adapter (not included) and plug into a wall socket.
- The charging case LED indicator will flash **RED** when charging and turn solid **RED** when fully charged.

Charge the Charging Case with Solar Panel

- Place the charging case in bright and consistent sunlight.
- The case will begin to charge instantly when the solar panel is exposed to sunlight.

Pair & Connect with a New Device

- The earbuds will turn on and enter pairing mode automatically once they are removed from the charging case. The earbud LED indicator will blink alternately **RED** and **BLUE** indicating that the earbuds are in pairing mode.
- Open the Bluetooth menu on your smart devices and search for new devices.
- When you see “**Allegro TWS Earbuds**” listed, tap it to connect.
- Once connected with your device, there will be a beep.
- Previously connected earbuds will connect automatically after they are powered on.
- **The earbuds can be used as a single or a pair.**
- The earbuds will power off automatically if you do not connect to the

earbuds in 5 minutes or the earbuds are securely placed into the charging case.

Touch and Button Functions

- Touch the multi-function button on either side of the earbuds to answer an incoming call, and again to end the call.
- Touch and hold the multi-function button on either side of the earbuds to reject an incoming call.
- When playing music:
 - Touch the multi-function button on either side of the earbuds to pause/resume music.
 - Touch twice on the multi-function button on the left earbud to play the previous track.
 - Touch twice on the multi-function button on the right earbud to play the next track.
- Touch and hold the multi-function button on either side for 2 seconds to activate the voice assistance of your device, Siri (iOS devices) or Google Voice Assistant (Android devices). You will hear a beep prompt to indicate that your voice assistant is activated.

Frequency Response	20Hz ~ 20KHz
Connection Range	33 feet
Continuous Play Time	Up to 4 hours (with max volume)
Battery Capacity of Earbuds	35mAh/3.7V *2 (0.1259 Wh)
Battery Capacity of Charging Case	400mAh/3.7V (1.48 Wh)
Earbuds Charging Time	Approx. 55 minutes
Charging Case Charing Time	Approx. 80 minutes

FCC Information

This device complies with Part 15 of the FCC Rules.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
