

Elite 10000mAh 18W PD & QC Power Bank
Instruction Manual
EPB-EL21

READ ALL INSTRUCTIONS CAREFULLY BEFORE USE AND
KEEP THIS MANUAL

In the Box

- EPB-EL21 Elite 10000mAh 18W PD & QC Power Bank (x1)
- Power Cable (x1)
- User Manual (x1)

Safety Precautions

- This product is NOT a toy, keep away from children and pets.
- Only use the device according to the instructions in this manual. Never use the device for anything other than its intended purpose.
- This device is NOT a substitute for proper medical equipment or attention.
- ONLY use the supplied power cable.
- Do not open this product or attempt to repair the unit yourself if it is not working properly. Doing so risks fire, shock or injury.
- When not in use, the device should be stored in a dry, cool location, away from sources of water or heat.
- Do not expose device or power cable to extreme temperatures (heat or cold), open flames, humid or wet conditions.
- Do not submerge in water. Do not use in a location where the device or power cable could fall into liquid.
- Unplug the charging cable when not in use. Do not pull the charging cable to disconnect, or use the cable as a handle.
- Do no use if device or power cable is damaged. If device or power cable is damaged, it MUST be serviced or replaced by the manufacturer or its service agent before using again.
- Low battery may cause dysfunction.
- Do not over charge battery.
- This device contains a built-in battery and should not be disposed of with regular household waste. Please consult the local authorities on the correct way to dispose of this device.

Product

Instructions

Charge the power bank fully before usage.

Charging the Power Bank

- Plug the small connector of the included charging cable into the USB-C charging port on the power bank. (If you are using an MFi cable, plug the Lightning tip in to the Lightning input on the power bank.)
- Plug the other end of the cable into an USB power source, such as the USB port on a computer or into a certified USB adapter (not included), and plug into a wall socket.
- The LED indicator will flash while power is in charging and stay solid when the power bank is fully charged.

Note:

- The Elite power bank can be fully charged in just 4.5 hours at 18W from USB-C port with a Power Delivery (PD) or Qualcomm Quick Charge (QC) wall charger (not included) and USB-C to C cable .
- Recharging via regular USB-A charger will take approximately 10.2 hours.

Charging Mobile Phones & Other Electronic Devices

- Using the cable of the device you wish to charge, connect the charging cable to your mobile phone/device with the appropriate connector.
- Connect the USB-C end of the cable to the USB-C port of the power bank, or connect the USB-A end of the cable to the USB-A output of the power bank.
- Press the On/Off button to activate and begin charging.
- The LED indicator will illuminate when charging.
- Remove the cable from your mobile phone/device when it is fully charged.

Note:

The USB-C port and USB-A port combine to deliver a max 18W charge to any device (Power Delivery Supported or Qualcomm Quick Charge Supported).

LED Indicators

- Press On/Off button once to turn on LED indicators.
- The LED indicators display the available power level of battery.
- Press On/Off button twice to turn off LED indicators.

Tech Specifications

- Battery: 10000mAh/3.7V 37Wh
- USB-C Input (PD/QC): DC 5V/3A, 9V/2A, 12V/1.5A
- Lightning Input: DC 5V/1.5A
- USB-C Output (PD/QC): DC 5V/3A, 9V/2A, 12V/1.5A
- USB-A Output (QC): DC 5V/3A, 9V/2A, 12V/1.5A
- Total Output: 18W (Max)
- Recharging Time:
- approx. 4.5 hours (with 18W PD or QC charger)
- approx. 10 hours (with 5V compatible USB charger)

FCC Information

This device complies with Part 15 of the FCC Rules.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
