

FUSION 5000MAH SOLAR-CHARGING POWER BANK

INSTRUCTION MANUAL

EPB-FU25

READ ALL INSTRUCTIONS CAREFULLY BEFORE USE.

IN THE BOX

- EPB-FU25 Fusion 5000mAh Solar-Charging Power Bank (x1)
- Charging Cable (x1)

SAFETY PRECAUTIONS

- This product is NOT a toy, keep away from children and pets.
- Only use the device according to the instructions in this manual.
- Never use the device for anything other than its intended purpose.
- Do not open this device or attempt to repair the unit yourself if it is not working properly. Doing so risks fire, shock or injury.
- When not in use, the device should be stored in a dry, cool location, away from sources of water or heat.
- Do not expose device or charging cable to extreme temperatures (heat or cold), open flames, humid or wet conditions.
- Do not submerge in water. Do not use in a location where the device or charging cable could fall into liquid.
- Unplug the charging cable when not in use. Do not pull the charging cable to disconnect, or use the cable as a handle.
- Do not use if device or charging cable is damaged. If device or charging cable is damaged, it MUST be serviced or replaced by the manufacturer or its service agent before using again.
- Low battery may cause dysfunction.
- Do not over charge battery.
- This device contains a built-in battery and should not be disposed of with regular household waste. Please consult the local authorities on the correct way to dispose of this device.

PRODUCT DIAGRAMS

INSTRUCTIONS

Charge the power bank fully before using for the first time.

CHARGING THE POWER BANK

- Plug the small connector of the included charging cable into the USB-C port on the power bank.
- Plug the other end of the cable into a USB power source, such as the USB port

on a computer or into a certified USB adapter (not included), and plug into a wall socket.

- The LED indicator will **flash BLUE** while power bank is in charging and stop flashing when the power bank is fully charged.

CHARGE THE POWER BANK WITH SOLAR PANEL

- Place the power bank in bright and consistent sunlight.
- The power bank will begin to charge instantly when the solar panel is exposed to sunlight. The LED indicator will **illuminate GREEN** to indicate the power bank is in charging.

CHARGING ELECTRONIC DEVICES WITH THE POWER BANK

- Using the cable of the device you wish to charge, connect the charging cable to your device with the appropriate connector.
- Connect the other end of the cable to the USB-C port or USB port of the power bank.
- The power bank will begin to charge automatically.
- The LED indicator will **illuminate BLUE** when charging.
- Remove the cable from the charged device when it is fully charged.

USING LED LIGHT

- 2x rapid press on the **[Power] button** to turn ON the flashlight.
- Press the **[Power] button** to switch light modes between, stable, smooth and strobe.
- 2x rapid press on the **[Power] button** again to turn OFF the flashlight.

TECH SPECIFICATIONS

- Battery: 5000mAh/3.7V/18.5Wh
- USB-C Input/Output: DC 5V/2A
- USB-A Output: DC 5V/2A
- Working Temperature: 14°F ~ 122°F (-10°C ~ 50°C)

FCC INFORMATION

This device complies with Part 15 of the FCC Rules.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
