

WAU-UM21 Umbra 4-Piece Car Sun Shade

How to Attach

- 1) Clean window with a damp cloth.
- 2) Attach the static film side of the Car Sun Shade to the window.
- 3) Use your hand to smooth out any air bubbles until the Car Sun Shade is firmly attached to the window.

How to Fold

1.

Stack the sunshades together with the static film sides touching.

2.

Twist both sides until 2 circles are formed.

3.

Align both circles together and insert into supplied pouch .

Important Notes

- 1) Dust is the main cause of loss of static effect. If Car Sun Shade does not properly cling to window, rinse shade with cold water and ensure window is clean before attaching.
- 2) Wrinkles in the Car Sun Shades are normal after being stored. Static film will smooth out after a few days.
