Do it Right!

Follow these instructions and you'll go viral in no time!

1 Peel it Peel off the protective covers (2) and apply to a clean phone.

2 Stik it Press Hard! Open Flipstik and press your phone onto any flat surface. The harder you press the longer it will stay. So press harder!

3 Wipe it Clean the blue reusable adhesive often, and let dry. The more you clean the more it sticks!

Does not work when wet.
Does not stick to naked phones, silicone cases or wet surfaces.
