

LASER LEVEL MULTI-TOOL
WTT-LL25

SPECIFICATIONS

Best Buddy Tools Laser Level Multi-tool includes:

- 3-in-1 Position Laser Level
- 3 X Bubble Levels
- 8 FT/ 2.5 M Tape Measure
- 6 IN / 15 CM Base Ruler

Batteries: 3x1.5V LR44 button cell (included)

Battery Installation

1. Locate the battery compartment near the Power Switch.
2. Unscrew the battery compartment cover and remove the battery cover from the screw opening side.
3. Insert 3*LR44 button cell batteries while paying attention to the polarity directions indicated inside the compartment.
4. Close and screw the battery cover.

Operation Instructions

1. Place the edge of the metal ruler on the Laser Level flatly against the surface you want to measure.
2. The respective bubble level will indicate whether the surface is level or not.
Note: The air bubble in the level must be in the cental of the 2 lines on the level tube in order to be level.
3. Turn ON/OFF Power Switch to project a laser in front of the Laser Level.
4. Move the Laser Line Mode Switch to the top position to project a horizontal line, the middle to project a cross hair, and bottom to project a vertical line.
Note: Be careful when turning the nozzle, do not break/scratch the glass protecting the laser.
5. The measuring tape reel can be drawn out to measure lengths of up to 8 ft / 250 cm.
6. Press the Grey button on top of the roll of the measuring tape to automatically reel in the tape.

⚠ WARNING

- a) Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
- b) Even used batteries may cause severe injury or death.
- c) Call a local poison control center for treatment information.
- d) Non-rechargeable batteries are not to be recharged.
- e) Do not force discharge, recharge, disassemble, heat above 50 °C or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- f) Ensure the batteries are installed correctly according to polarity (+ and -).
- g) Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- h) Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- i) Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

⚠ WARNING

- **INGESTION HAZARD** :This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH OF CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

WARNING!

- Avoid direct eye contact with laser.
- Handle with care and don't drop from heights to avoid damaging the glass indicator.
- When reeling in the measuring tape, feed it in slowly to avoid cuts or injuries.
